

GammaTech
DURABOOK S15C

Designed for rugged environments, Gamma Tech Computer Corp.'s Durabook S15C has a spill-resistant design that protects the keyboard, touchpad, and switches from spills seeping into sensitive interior parts and anti-shock mounting technology to withstand tough use. It features a large 15.6-inch display with high-definition resolution, Intel compliant HD stereo audio, and two dual-channel DDR III memory slots. The GammaTech S15C is powered by both Intel i7 and i5 processors and the Intel® HM55 chipset.
